EDUCATION ABROAD STUDENT FUNDING, 2016-2017

UNIVERSITY OF KENTUCKY

INTRODUCTION

UK Education Abroad strives to make education abroad programs more affordable and accessible for students. In Academic Year 2016-2017, UK Education Abroad managed the awarding of \$298,122 in total scholarships and grants.

Of the total amount, \$236,000 was awarded via the UK Education Abroad Scholarship to 237 qualified students participating in credit-bearing education abroad programs with demonstrated financial need. The average award amount was \$996, which was slightly higher than in 2015-16 (\$963). Approximately 40% of applicants received funding, which was about the same percentage as was awarded in 2015-2016. This scholarship had 32 fewer applicants and 15 fewer awardees in 2016-17 than in 2015-16. The lower number of applicants and lower number of awardees brought the average award amount up from the 2015-16 average.

During 2015-16, UK Education Abroad created a new scholarship: *The Leap Day Award*. This award challenged students to participate in various Education Abroad activities, and ten recipients were drawn from the eligible pool of students who participated in the required number of events. One of these recipients was awarded a \$100 scholarship for the 2016-17 year, with the remaining awards distributed during the 2015-2016 year.

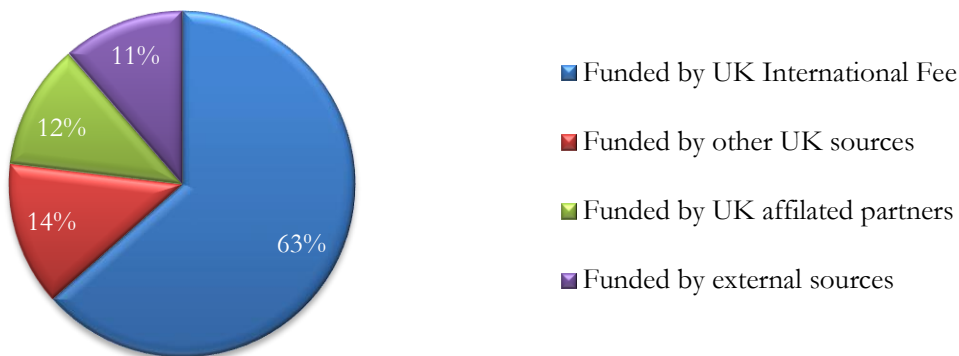

UK Education Abroad also partnered with various campus partners and external organizations to continue recently-launched scholarships, including the ISA-UK Diversity Scholarship and the Woman's Club Travel Abroad Scholarship. This work generated additional funding totaling \$27,800.

SCHOLARSHIP FUNDING SOURCES:

The total amount of scholarships for education abroad awarded to UK students in 2016-17 from UK, affiliated partners and external sources totaled \$399,572. In 2016-17, 63% of all funds awarded to UK students for the purpose of education abroad programming came from the International Education Fee (\$253,500). Of this \$253,500, \$236,000 was used for the UK EA Scholarship, \$10,000 was used for the New Horizons Scholarship and \$7,500 was used for the Undergraduate Research Abroad Scholarship. UK sources apart from EA accounted for 14% of awarded scholarships and included funding via the Provost Budget Office, the UK EA operations budget, endowment funds, and department/college funding sources (\$53,822). UK's affiliated education abroad partners provided 12% of funding (\$46,750), including \$25,000 for the ISA-UK Diversity Scholarship. The remaining 11% (\$45,500) included scholarships from federal funding sources.

Please note that funding from UK, affiliated partners and external sources is not exhaustive and accounts for only those awards made to UK students for which UK Education Abroad has been notified.

SUMMARY

Increased scholarship funding is critical for meeting increasing demand for education abroad and to further enhance our ability to support students with rising educational costs, balancing the level of scholarship support with financial need and expanding the percentage of students that might otherwise not participate in this invaluable experience.
